FEBRUARY 10, 2025 | BY: THE CLIENT ACCOUNTING SERVICES TEAM

It goes without saying that accurate financial information is the most basic of requirements to gauge the performance of a company, especially when credit is being considered. Thus when the financials are unreliable or unreasonably delayed (or both!), there is jeopardy for the company and the lender.

Persistent staffing shortages in the accounting field have led to a degradation of quality and quantity of internal accounting staff. Even public companies are noting this situation in their public filings.

We offer a solution with our Client Accounting Services team. With over a dozen dedicated accountants, we handle all facets of books and financial reporting. With the Johnson O'Connor CAS team, clients receive:

- Dedicated professionals with no turnover worries.

- Timely responses to pressing matters.
- Liaison with bankers and other parties.
- Alerts on potential pitfalls.
- Integration with your tax return and financial statement preparation.

We understand the need to quick closes, timely delivery, and accurate information, and we stand ready to assist you with your next need in this area.
